Confirmation of the Tax Enforcement  
Return of the Rural Municipality  
of Starland No. 307.

Takes notice that a judge of the  
District Court of Calgary will, at  
the time of the trial, on the 25th  
day, the 5th day of September, 1917,  
at the town of Hanna, confirm the  
Tax Enforcement Return of the  
Rural Municipality of Starland No. 307.

Do at Rowley Station this 25th  
day of June 1917.

W. F. RICHARDSON,  
Secretary-Treas.  
Rural Municipality of Starland  
No. 307.

### MORRIN NEWS ITEMS

Mrs Sutherland was a visitor in  
Calgary last week end.

Miss Stark, of Didsbury, visited  
Mrs. W. D. Martin a few days last  
week.

Mr. Sutherland is in Calgary at  
present attending the Farmer's  
Convention.

C. Smith and wife of Olds, visited  
their daughter Mrs. DeMille a few  
days this week.

Mrs. Bennett and Don Martin of  
Banff are visitors at the W. L.  
Martin home at present.

Mr. McEachern left Friday for his vacation in B. C. Mr. Ross  
takes his place while he is away.

Morin baseball team visited  
Drumheller last Sunday, and the  
score was 7 to 2 in favor of Morin.

Miss Harvey who has taught  
at Hillside during the past term,  
left for her home at Olds on Wed-  
nesday of this week.

### THE IMMORTAL COWARDS

By Herbert Kaufman

We are the Cowards, Immortal  
the men who feared dishonor and  
who quailed at shame.

Because we respected self more  
than life and dreaded degradation  
more than death, our names are  
flaming torches.

We saw the whip the Persian  
brought for Greeks and therefore  
did not shrink to see his million  
spurs. And every Alpine pass has  
seen our trembling progress be-  
speak blind God of strength to per-  
mit if we might not hold our moun-  
tain elevens for freedom.

Had we not paled beside our wo-  
men as the Turk set forth to sweep  
the West, we would have failed to  
beat him back. No wound that  
weapon brings could make a tor-  
ture comparable to their debasement.

And at Waterloo, because retreat  
demanded all our pride, we chose  
the path to glory and blessed the  
bayonets in our breaking hearts.

From Concord and from the  
Alamo we call to you, from Valley  
Forge and from Balaklava, from the  
wastes and wilds and the frontier  
blockhouses, and from every grave  
that marks a martyrdom, we cry  
to you our duty—carry on!

The price of liberty is dear, but  
liberty is more precious than its  
dearest price.

Fear God and conscience and  
humiliation and injustice and de-  
feat; serve your fears with valor,  
and defend the high faiths of Hu-  
manity.—From August 1917, Co-  
mopolitan.

### Correspondence

The Editor of the Mail will not hold himself  
responsible for the correctness of corre-  
spondents published under this heading.

Craigmyle, Aug. 1st, 1917

Editor.—In a recent issue of your  
paper you stated that Gordon Pierce  
of Craigmyle, was reported killed  
in action. I beg to state that it is  
not the case. Mr. Pierce left Cal-  
gary as the Regimental Quarter-  
master Sergeant of the 50th Batt.  
in October 1915. He has been for  
over a year at the front in France  
and received his commission, the  
rank of Lieutenant, for the good  
work done for the battalion and is  
still fit and well.

I would be glad if you would in-  
sert the foregoing in your paper.

V. M. EATON.

### EXHIBITORS ATTENTION

Farmers please bring in all your  
goods live stock and help  
make the Fair a success and ladies  
please bring in all the fancy work,  
products and poultry. A large tent  
will be on the grounds to accommo-  
date exhibits. This is your Fair,  
make it a success.

### RED CROSS NOTES

Garnold Clark donated 50c to the  
Red Cross Society.

The Ladies Aid of the Methodist  
Church have sent in the following:  
12 many tall bandages, 4 pair  
bed room slippers.

### SUPPORTS CONSCRIPTION

At a special meeting of the Craig-  
myle Local U. F. A., the following  
resolution was moved and seconded  
by Messrs Cole & Stevenson and  
carried unanimously:—"That this  
meeting support the joint conscrip-  
tion of both wealth and men, but  
not for one in advance of the other,  
and as a body who has contributed  
largely in men and money towards  
winning the war, think we are en-  
titled to be heard."

### THE CROPS AROUND THIS DISTRICT

According to some of the crop  
reports recently published in the  
Calgary papers, they would lead  
one to believe that the crops here  
do not amount to much, but we  
have taken the trouble to find out  
for ourselves and the public in gen-  
eral just how the farmers are situ-  
ated and feel on the subject, and  
find that the crops here are in a  
better condition in general, than in  
most districts in the west. We can  
show some of the city reporters the  
crops we have reference to, so as  
not to create a wrong impression on  
the public in general.

### WOMEN'S INSTITUTE.

The regular monthly meeting of the  
Women's Institute was held in  
the Methodist church yesterday  
afternoon. Miss Windle having  
charge of the following program:  
Opening chorus—By the girls.  
Solo—Miss Beatrice Austin.  
Recitation—Miss Adiset.  
Song—Miss Mollie MacWilliams.  
Recitation—Miss Beatrice Benson  
Reading—Miss Windle.  
Dance—Mollie MacWilliams.  
Chorus—By the girls.  
Ice cream and cake was served by  
the young ladies of the Institute  
after the meeting.

The Women's Institute have  
made arrangements to have a booth  
at the Fair on Aug. 15th, and all  
the ladies are expected to bring  
cake and sandwiches.

### SCHEDULE OF FAIR DATES FOR CENTRAL ALBERTA

The annual fall fairs will be held  
on the following dates:

Youngstown, Aug. 6-7  
Chinook, Aug. 8  
Hanna, Aug. 9  
Della, Aug. 10  
Oyen, Aug. 13-14  
MUNSON, Aug. 15  
Stettler, Aug. 10-11  
Didsbury, Sept. 5-6  
Olds, Sept. 7-8  
Three Hills, Sept. 11-12  
Alix, Sept. 21  
Gadsby, Sept. 22  
Trochu, Oct. 2-3

### St. Joseph Convent Red Deer, Alberta

Boarding school and day school  
between Hanna and Edmonton  
charmingly situated commanding a  
fine view of the river and vicinity.

Its natural beautiful location can  
hardly be excelled anywhere in this  
country. Ideal environments for  
study and recreation.

The Departmental Course of  
Studies is carried on.

Languages: English and French.  
Social Courses in Art and Music.

## SHOE POLISHES

A "2 in 1 Shoe Polish" is made for everyone. For Black Shoes, 1 oz. "2 in 1" and 2 oz. "Black Combination" (gum and liquid) for White Shoes, 1 oz. "White Cake" (cake) and 1 oz. "1 White Liquid" (liquid); for Tan Shoes, "2 in 1 Tan" (paste) and 2 oz. "1 Tan Combination" (gum and liquid).

**10c** Black-White-Tan **10c**  
F. F. DALLEY CO. OF CANADA LTD., • Hamilton, Can.

**QUICK-HANDY-LASTING**

**Profit in Wheat**

Land Worth Hundred Dollars Acre  
Will Net Ten Per Cent.

Rentance

That it costs \$18.50 an acre to produce wheat this year is the outcome of a recent report by Mr. R. S. Ridout, Regina manager of the Western Trust Company, who submitted a statement to the stockholders, adding that his figures indicate that land worth \$100 an acre would give a net revenue of ten per cent.

Sowed one, and one-half bushels per acre, 50 per bushel, \$3.75.

Plowing and two harrowing, per acre, \$2.50.

Drawing and two harrowing, per acre, 75 cents.

Harrowing after sowing, per acre, 25 cents.

Cultivation, 75 cents.

Tenement, per acre at 40 cents, 10c.

Storage, 50 cents.

Threshing, loading, hauling, 25 cents.

Marketing at 18 cents per bushel to Port Weller, 75 cents.

Interest-on-lot at \$30 an acre, 7 per cent, \$2.10.

Land tax, 25 cents.

Total cost per acre, \$18.25.

Cost per bushel, 73 cents.

Marketing at 18 cents per bushel, \$1.50.

Profit, per bushel, 72 cents.

Profit, per acre, \$19.25.

**SATISFIED MOTHERS**

No other medicine gives as great satisfaction to mothers as does Baby's Own Tablets. These Tablets are the best remedy for the babe or the growing child. They are absolutely free from injurious drugs and contain only the finest and purest ingredients. Concerning them Mrs. J. Morrissey, of Pamplico, Que., writes: "I have used Baby's Own Tablets with great success. My children are well satisfied with them and would use no other medicine for my little ones. I have never been disappointed by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont."

**Manifestations of Desperation**

The submarine and mine armament are now the chief weapons of war, part of the enemy, and they may involve the nation in privation and suffering. But we must not forget that all can bring victory to Germany unless all the teaching of history is forgotten. We are in the hands of the enemy, but we are in the hands of courage, patience, or compassion; endurance, or the will to make a stand. From the course it is pursuing to bring the enemy to its knees, and the mind of any Empire which disregards the principles rendering her almost impossible.

London Daily Telegraph.

"There's a report going around that we are engaged," said one of the men. "It's true. He—He'd rather verify it if you haven't any objection."

Marriage may be a lottery, but a whole lot of people seem to be satisfied with less than capital prizes.

**Grape-Nuts**

Made from choice whole wheat and malted barley, this famous food retains the vital mineral elements of the grain, so essential for balanced nourishment, but lacking in many cereal foods.

From every standpoint—good flavor, rich nourishment, easy digestion, and a sense of health from childhood to old age—Grape-Nuts food.

# New Wash Skirts Employ Many Interesting Materials

**I**N SPITE of the continued vogue for one-piece dresses, women are deeply interested in the separate skirt and waist suits that go to complete the summer wardrobe. This season the wash skirts are made of very interesting, as well as practical, materials. They are also cool, durable and decidedly modish. A noticeable feature of summer styles is the tendency for everything white. So true is this that white linen coat suits are more in evidence than ever. But to return to the separate skirts and the thing that go to make them attractive.

So dear have pock'ts become that they are now considered as a permanent fixture in the fashionable world. They play an important role in giving distinction to the new skirts.

Particularly lovely are the separate skirts of washable silk jersey. One illustration of the assertion is to be found in the model with several lines of shirring at the top. A heading of the material is the finishing touch. The skirt, by the way, has no fastening. The material is gathered over a piece of elastic which allows the skirt to be drawn over the head and shoulders and produce itself to accommodate the waistline. This model is best suited to the slender figure.

The blouse is of white Georgette and makes good use of the vogue of lace.

The linen model is very fetching, and the fact that it buttons and unbuttons from hem

## Some German Sub. Secrets

Sea Wolves Still the Hope of the

An anonymous German-American, who was until comparatively recent times for all practical purposes a good regular German expatriate, a country boy from the hills, who had heard of the German plans to enthrone the United States with Mexico and Japan. He had been told that allegiance was with the United States and as he had in the course of the war been in touch with scattered United German agents in the United States and Cuba and had learned many things, he had only to tell his United German agent he decided that his duty was to communicate that he had information which would interest the New York world, which publishes the man's story but provokingly conceals the name of the man whose known citizen indeed, whose word is to be relied upon. Some of his secrets, it is true, have been let out in Washington, are not published in the newspaper for obvious patriotic reasons, but the secret of the submarine's success is interesting enough.

Herr Schmidt, as he is called, says that the Germans have built their submarines alone to win the war. She is building them more rapidly than the Allies, and they are faster, and altogether more destructive than the models used earlier in the war. The number of German submarines has been improved in the past thirty months to almost the extent of the British submarine fleet. At the present time Germany is building submarines 26 per cent larger than those of the Allies, and, of, and we are informed that some of them were ready to take the water on July 1st. Herr Schmidt says that Germany was turning out submarines at the rate of four a week, and that the British Admiralty now expects to double this output. Just now she has 200 of these subs, while the Allies have only as many as 500 under construction. In another year it is intended that there shall be 1,000 German subs.

Incidentally it takes just eight weeks to finish a submarine after her keel has been laid.

All the ships that are building in Germany today are submarines. Construction of surface ships has been discontinued for a year, or since the Battle of Jutland proved to the Germans that they could not destroy the British Fleet. The German navy has been idle ever since. This is the reason that the crew of a naval unit of 150,000 men, and from this number the submarines are recruited, are all sailors. The job of being on a submarine is not eagerly sought after, and it is no small matter to get men to do it.

Of late there has been an improvement in this respect since each submarine carries a pilot. An U-boat goes on a cruise, and when she returns her crew goes ashore and enjoys the comforts of the sun, takes a turn. By this means the discipline of sailors for working on the underside of the ocean is relaxed.

There is also the compensation that they are treated as heroes in Germany. Herr Schmidt informs us the submarine is a periscope, that is almost invisible to the eye, and that it reflects two mirrors, put together like a "V" lying on its side, the wide part in front, so that it can turn and converge the image upon the low power lens, which has a light dove-tail socket receiving apparatus below. Microphones are also used, and these appear to consist of a vessel and the direction of the course. With this information the submarine can get close to her victim without showing her periscope.

With this she attacks. Invariably hunted in fours, travelling in a diamond-shaped formation, one in front, one behind, and one to the rear. Eight miles apart, the periscope's lens, which has a low power, receives the sound apparatus below. Microphones are also used, and these appear to consist of a vessel and the direction of the course. With this information the submarine can get close to her victim without showing her periscope.

With this information the submarine can get close to her victim without showing her periscope.

A substitute for potatos is said to have been discovered by the sea wolves, called the "clashed." When cooked it looks and tastes so much like a potato it is hard to distinguish between the two. The vegetable has been made the subject of experiments in the Southern United States, and it has been found that it grows well there and can be raised for about half the cost of potatos.

After a girl has broken a man's heart some other girl comes along and mends it.

## Dogs Play Part In War

Thousands of Unsung Red Cross Dogs Have Been Killed

Sydney Allerton of London, England, who is in the U.S., to purchase dogs for the Come Relic Squads, a private organization here, has been told some interesting stories before starting for the Middle East.

"No one," he said, "can possibly realize the great work that dogs are doing in the war."

The charity and heroism of the Red Cross dogs are perhaps well known, but the canine heroes which have been killed, maimed and wounded while serving our country are not so well known.

Aside from the companionship of dogs, which has been such a boon to us all, we have proved such excellent carriers of messages and aides in health work that their work is absolutely indispensable.

The kennels in London are now twenty-five blinded dogs. They were wounded in the thick of the fighting, and when the dogs returned home, they seem to realize that they have played their part in the greatest battle of all time, and are not in Krupp gun works. But when the burglars break into your house, the dogs are the first to tell you.

"Blind" are the peacemakers.

The German army advanced.

When the German army entered Louvain, the priests and nuns who had been working to keep the town alive, were killed.

More than 500,000 men were needed, not only at the front, but in families where there are no children, to replace those lost in battle.

I have read where there is a law in New York state urging lawmakers could see what the dogs have done in the war they would have to do.

Many a man's failure is due to his being afraid to try.

## Miraculous Escape

Avatar Back From France, Planned Down After Being Struck Sights

A. F. Miller of No. 14 Wall street, New York, who was for a year a member of the flying squad in the war, has just returned to the States with a stirring story of going blind 7,000 feet in the air and guided only by a sort of sixth sense that gradually instilled in him the desire to live.

Mr. Miller, who has been a pilot and consult a specialist and if he can save his sight will offer his services to the American Legion as an aviator or an instructor.

He was spinning along at about 7,000 feet when he suddenly found himself "apparently just as it was ever in my life when, in a flash, I went blind."

"Of course the shock was terrific, but I didn't let the idea that I was going blind get the better of me. I got out of my mind. And I got down safely. Experience has taught me that if you are in trouble you can feel something guiding me as I get close to the ground. My landing was perfect, though I was in a blind man's landing; in fact, I had hit the ground harder sometimes when I landed."

Another aviator with a record of service in France, accompanied Mr. Miller, and the two of them were one of the heroes of the French flying squad. The French government has him highly decorated, and he will act as an instructor to budding air fighters at one of the army aviation schools.

**Keep Huns Busy Paying Indemnities**

Only Way to Guarantee Peace During the Twentieth Century

Writing in the Federalist, Mr. Appleton, secretary of the Central Federation of Trade Unions in Great Britain, has called attention to the creation of "no indemnities and no annexations," says:

"It is impossible to state or even to estimate the value, in terms of money, of the nation of lives sacrificed in the war, the physical and literary cast, or the mental and moral goods of the people whose countries have been destroyed, or the resources she has destroyed, or the defense and welfare of the world. But it is certain that she has impoverished the world and herself."

It is obviously impossible to extract from Germany beaten even to her knees and unable to defend herself, the sum that she is owing.

The author of the article, however, suggests that the real submarine must be given up to the attack, and submerges at the last moment. The rear gunner also gets away in the fighting pair.

Herr Schmidt says that the real submarine has a thin hull and cannot maneuver as easily as the U-boats, and therefore can maneuver so that they can approach on either side of the submarine to attack it. It is impossible to penetrate the torpedo. The rear boat keeps the rear assassin informed of the movements of the submarine to be attacked, and submerges at the last moment.

The rear gunner also gets away in the fighting pair. MADE IN CANADA

**Rheims Cathedral To Be a Monument**

Battle-town Edifice Will Remain, Pledged by Unknown Victims

Consecration of the cathedral will be delayed until after the unknown dead of all the armies fighting in France for the commandant general has been informed upon by the French government.

The plan to be put into execution has not yet been announced in dispatches from the headquarters in America of the French army.

It is proposed that the cathedral shall not be restored, but that representatives of all the countries that have fought in France within what remains of the historic edifice, which then shall be dedicated as the monument to the

Unknown Soldier.

Will Cure a Cold—Colds are the commonest ailments of mankind and if neglected may lead to serious conditions. 177 "Quinsy" Electric Oil will cure colds quickly, relieve inflammation speedily and thoroughly and will strengthen them against attack. It is a safe remedy because the inflammation it will stop all irritation in the throat. Try it and prove it.

Lloyd George's French

Mr. Lloyd George's frequent visits to France have done much to improve his French, which he now speaks with considerable fluency and will strengthen them against attack. It is a safe remedy because the inflammation it will stop all irritation in the throat. Try it and prove it.

Alone every woman at the head of a home meets daily many little worries in her household affairs. The more she thinks about the house, all contribute to these worries. Most of them may be trifling, but they constitute a constant strain that affects the blood and nerves and makes her feel prematurely old. The effect of these little worries may be noticed in sickness, tiredness, lack of sleep, slight exertion and the coming of wrinkles which are the first signs of age. Dr. Williams' Pink Pills offer a speedy cure; a restoration to the cheeks, brightness to the eyes, a return to health and a sense of freedom from worries. Among the many thousands of Canadian women who have been cured of strength through these pills are Mrs. G. Strasser, Acton, West, Ont., who can now walk miles without fatigue; children and after each birth I could easily run down, I had weak legs, but taking them I feel strong again and able to do my household work. After the birth of my third child I became very weak and unable to do my household work. This was full of the motions of Germany. Now he is wondering if the old rhyme will last long enough for him to mount a horse and ride his steed with strategic retreats, the crown prince has little time to rule the natural day and night. He goes to wonder to wonder to see the world will be looking to him on his next birthday—Rogester. Her

LITTLE WORRIES IN THE HOME

**An Increase of Settlers**

Over 2,000 More This Year As Compared With May, 1916

The returns from the ports of entry received by the Admiralty Board for May, 1917, for the month of May will show a wonderful increase in the number of Americans who have crossed into Canada. The number of exports of entry between Emerson and Coates. They indicate two thousand or more Americans who have crossed into the western provinces during the month of May this year than in May, 1916. There were 2,000 more entries of cars of effects, and the total wealth of the incoming people is over three times that of May, 1916. Last year, being \$615,171.

The figures for May, 1916, were: Settlers, 887; cars of effects, 123; wealth of settlers, \$209,061; wealth of effects, 91; value of effects, \$12,450 and wealth of settlers, \$17,171.

The three principal ports of entry are Emerson, North Port, and the Sault, and Coates, Ont. Emerson settlers 1,697; cars of effects 20; value of effects \$90,000; wealth of effects, 91; value of effects, 34; value of effects, \$7,630; and wealth of settlers \$47,740.

Settlers 1,000; cars of effects, 25; value of effects \$34,590; wealth of settlers \$33,210.

Settlers 615; cars of effects, 34; value of effects, \$7,630; and wealth of settlers \$47,740.

Settlers 1,000; cars of effects, 25; value of effects \$34,590; wealth of settlers \$33,210.

Settlers 615; cars of effects, 34; value of effects, \$7,630; and wealth of settlers \$47,740.

Settlers 1,000; cars of effects, 25; value of effects \$34,590; wealth of settlers \$33,210.

Settlers 615; cars of effects, 34; value of effects, \$7,630; and wealth of settlers \$47,740.
